

Bruno L. Giordano

Auditory cognitive neuroscience

Education

- 2025 **HDR (Habilitation à diriger des recherches)**, Aix-Marseille Université, Marseille, France, thesis: “The perceptual and cerebral representation of natural sounds”.
- 2002–2005 **Ph.D., Perception and Psychophysics**, Department of General Psychology, University of Padova, Italy and Institut de Recherche et Coordination Acoustique/Musique (STMS-IRCAM-CNRS), Paris, France, thesis: “Sound Source Perception in Impact Sounds”. Advisors: Prof. Stephen McAdams and Dr. Paola Bressan.
- 1995–2001 **Degree, Experimental Psychology**, Faculty of Psychology, University of Padova, Italy, 110/110 *cum laude*, the Italian Degree (“laurea specialistica”) is equivalent to the Master’s degree. Thesis: “Psychophysics of timbre in piano tones”. Advisor: Prof. Giovanni B. Vicario.

Academic positions

- 2017– **Research Scientist (CNRS CRCN, Echelon 10)**, Institut de Neurosciences de la Timone UMR 7289, Centre National de la Recherche Scientifique, Marseille, France.
- 2015–2017 **Research Associate**, Institute of Neuroscience and Psychology (INP), University of Glasgow, UK.
- 2014–2016 **Scientific advisor**, Dr. Stefano Papetti, Institute for Computer Music and Sound Technology, Zurich University of the Arts, Switzerland.
- 2014–2015 **Postdoctoral Research Fellow**, Prof. C. Kayser, INP, University of Glasgow, UK.
- 2012–2014 **Marie Curie Research Fellow**, hosted by Prof. Pascal Belin, INP, University of Glasgow, Glasgow, UK.
- 2011–2012 **Visiting Researcher**, Prof. Pascal Belin, Centre for Cognitive Neuroimaging (CCNi), Institute of Neuroscience and Psychology, University of Glasgow, Glasgow, UK.
- 2009 **Postdoctoral Research Fellow**, Prof. Jeremy R. Cooperstock, Department of Electrical and Computer Engineering, McGill University.
- 2006–2011 **Postdoctoral Research Fellow, Associate Director of Music Perception and Cognition Laboratory (MPCL), Research Associate**, Prof. Stephen McAdams, CIRMMT, Department of Music Research, McGill University, Montréal, Canada.
- 2005 **Research Assistant**, Prof. Stephen McAdams, CIRMMT, Department of Music Research, McGill University.
- 2004 **Visiting doctoral student**, Prof. Stephen McAdams, STMS-IRCAM-CNRS, Paris, France.
- 2003–2004 **Visiting doctoral student (Marie Curie Training Site program)**, Prof. Roberto Bresin, Department of Speech, Music and Hearing (TMH), Royal Institute of Technology (KTH), Stockholm, Sweden.
- 2002 **Research Assistant**, Prof. Giovanni B. Vicario, Department of Philosophy, University of Udine, Italy.

Scientific service and collective responsibilities

Blurb Associate Editor (3 journals), institutional governance and committees (including platform and doctoral-related committees), recruitment and promotion committees, PhD and HDR juries, conference chairing and program committees, evaluation for major funding agencies, and journal peer review across more than 50 journals since 2006.

Editorial responsibilities

- Associate editor: *Frontiers in Neuroscience and Psychology: Auditory Cognitive Neuroscience*.
- Associate editor: *Auditory Perception & Cognition* (Taylor & Francis).
- Associate editor: *Brain Topography* (Springer Nature).

Institutional governance and committees

- 2026 - NeuroSchool committee for allocation of PhD extension funding, Aix Marseille Université, Marseille, France. 12–13 February 2026
- 2025– - Steering group member, Optically-pumped magnetometers (OPM) platform, Institut de Neurosciences des Systèmes, Aix Marseille Université, Marseille, France.
- 2023–2026 - PhD follow-up committee (CSI – comité de suivi individuel de these): Clement Sauvage, Institut de Neurosciences des Systèmes, Aix Marseille Université, Marseille, France.
- 2023 - PhD follow-up committee (CSI – comité de suivi individuel de these): Paul Robert-Lalande, Institut de Neurosciences des Systèmes, Aix Marseille Université, Marseille, France.

- 2015–2016 - Research Planning and Strategy Committee, University of Glasgow.
- 2015–2016 - Representative of Institute of Neuroscience and Psychology in Postdoctoral Researcher Forum, University of Glasgow.

Organization of events

- Invited seminars**
- Prof. Laurie Heller, Institut des Neurosciences de La Timone. Marseille, France, 20 October 2025. Role: local organizer and funding.
 - Prof. Elia Formisano, Institut des Neurosciences de La Timone. Marseille, France, 5 March 2024. Role: local organizer and funding.

- Cross-team scientific coordination**
- Joint NASCE lab retreat: Natural Sounds Cognition and Neuroscience (NaSCog, Institut des Neurosciences de La Timone, CNRS and Aix-Marseille University, leader: Bruno L. Giordano) and Auditory Cognition Research group (Maastricht University, leader: Elia Formisano). Carry-le-Rouet, France, organized for 7–9 October 2026. Role: organizer and co-funding.
 - *Representation in brains and machines*, BraiNets thematic days, Institut de Neurosciences de la Timone, Marseille, France, 26 June 2026. Role: organizer.
 - *Analysis of distances in neuroscience*, BraiNets thematic days, Institut de Neurosciences de la Timone, Marseille, France, 6 November 2025. Role: organizer and speaker.
 - Joint lab meeting: Audition-to-semantics (Aud2Sem, INT, CNRS & AMU, leader: B.L. Giordano); Neural Bases of Communication (BANCO, INT, CNRS & AMU, leader: Pascal Belin); Dynamics of Communication and Auditory Processes (D-CAP, INS, Inserm & AMU, leader: Daniele Schön). Institut des Neurosciences de La Timone, Marseille, France, 20 October 2025. Role: organizer and funding.
 - Joint lab retreat: Neural bases of communication (BANCO, Institut des Neurosciences de La Timone, CNRS and Aix-Marseille University, leader: Pascal Belin) and Auditory Cognition Research group (Maastricht University, leader: Elia Formisano). Posada, Italy, 29 April – 2 May 2018. Role: co-organizer and co-funding.

- Workshops**
- Workshop on multivariate analysis of fMRI data, Institute of Neuroscience and Psychology, University of Glasgow. Glasgow, UK, 17-18 September 2012. Role: co-organizer.

Hosted senior research visits

- 2026 - Prof. Sonja A. Kotz (Maastricht University), hosted at the Institut de Neurosciences de la Timone, Marseille, 15 June–31 July 2026. Role: scientific host; visit funded through the CNRS component of ERC Synergy NASCE. Collaboration on AURIS test-battery development and on the clinical and SEEG framework for characterising future patients with acquired auditory-recognition disorders.

Recruitment and promotion committees

- 2024 - Selection committee for lecturer-level position (maître de conférences) at Aix-Marseille University on Acoustics and Digital Audio Signal Processing (2024).
- 2017 - Tenure promotion committee, Department of Psychology, Carnegie Mellon University, Pittsburgh, Pennsylvania, USA.

Thesis examination and HDR juries

- 2026 - Doctoral thesis: Mr. Lidongsheng Xing, “Identifying Sound Features from Brain Activity”, Maastricht University, The Netherlands.
- 2023 - HDR thesis (habilitation à diriger la recherche): Dr. Benedikt Zoefel, “Rhythmic neural and perceptual dynamics in the auditory system”, Université Paul Sabatier – Toulouse III, Toulouse, France.
- 2022 - Doctoral thesis: Dr. James Plumridge, “Language knowledge and visual speech processing: An EEG investigation”, School of Psychology, Faculty of Health, Deakin University, Melbourne, Australia.

- Doctoral thesis: Dr. Victor Rosi, “The metaphors of sound: From semantics to acoustics”, Institut de Recherche et Coordination Acoustique/Musique (STMS-IRCAM-CNRS), Paris.
- 2019 - Doctoral thesis: Ms. Vittoria De Angelis, “Computational neuroimaging of real-life listening”, Maastricht University, The Netherlands.
- 2016 - HDR thesis (habilitation a diriger la recherche): Dr. Guillaume Lemaitre, “Everyday sound: A journey through perception, cognition, interaction, and imitation of sounds that surround us”, Université Pierre et Marie Curie, Paris.
- 2015 - Doctoral thesis: Dr. Eric Boyer, “Continuous auditory feedback for sensorimotor learning”, Institut de Recherche et Coordination Acoustique/Musique (STMS-IRCAM-CNRS), Paris.
- 2014 - Doctoral thesis: Dr. Hamed Nili, “Understanding brain representational geometries”, MRC Cognition and Brain Sciences Unit, University of Cambridge.

- Seventh European Gesture Workshop (GW 2007), 2007, Lisbon, Portugal.
- Ninth International Conference on Digital Audio Effects (DAFx-06), 2006, Montréal, QC, Canada.

Funding

Grants as PI/co-PI

- 2025–2031 European Research Council (ERC), Synergy program: ERC-2024-SyG: NASCE (Proj. 101167313, PI with corresponding PI E. Formisano). € 8,622,811 (contribution to CNRS partner = € 3,544,851).
- 2022–2026 French National Research Agency (ANR-21-CE37-0027). € 543,253.
- 2020–2022 Institute of Language, Communication and the Brain (ILCB) Equipe Projet. € 50,000.
- 2015–2018 Biotechnology and Biological Sciences Research Council (BBSRC). Researcher Co-I (non-permanent PI role) with J. Gross (PI), Institute of Neuroscience and Psychology, University of Glasgow, Glasgow, UK, £ 743,155.

Fellowships and bursaries

- 2012-2014 Marie Curie Intra-European Fellowship for Career Development (IEF), Institute of Neuroscience and Psychology, Centre for Cognitive Neuroimaging, University of Glasgow, Glasgow, UK, € 278,807.
- 2011-2013 Erasmus Mundus Postdoctoral Fellowship (Auditory Cognitive Neuroscience Student Exchange Network), Institute of Neuroscience and Psychology, Centre for Cognitive Neuroimaging, University of Glasgow, Glasgow, UK (with P. Belin), € 43,400.
- 2005 COST-IST action “ConGAS”, Short Term Scientific Mission to Department of Speech, Music and Hearing (TMH), Royal Institute of Technology (KTH), Stockholm, Sweden (with R. Bresin; PI: N. Bernardini), € 1,500.
- 2003–2004 Marie Curie Fellow at Department of Speech, Music and Hearing (TMH), Royal Institute of Technology (KTH), Stockholm, Sweden., financed by Marie Curie Training Site Fellowship, FP5 contract number HPMT-CT-2000-00119 (with S. Ternström [PI]), € 7,200.
- 2001–2004 Doctoral Scholarship, Assessorato della Pubblica Istruzione Beni Culturali, Informazione Spettacolo e Sport, Regione Autonoma della Sardegna, [Council for Public Education, Cultural Heritage, Information, Entertainment and Sports, Autonomous Province of Sardinia], Italy, € 30,984.

Grants as external collaborator

- 2021-2026 Dutch Research Council (NWO), with E. Formisano (PI), Department of Cognitive Neuroscience, Faculty of Psychology and Neuroscience, Maastricht University, Maastricht, Netherlands, € 725,000.

Prizes and awards

- 2023 Travel grant: Acoustical Society of America. € 1,350
- 2018 Allocation d’Installation Chercheurs, Ville de Marseille. Prize awarded annually by the Marseille municipality to researchers moving to Marseille that were previously hired outside the Aix-Marseille University. The prize is awarded based on the curriculum vitae and a scientific project described by the candidate, and is attributed by a jury of local scientists. € 3,000

Co-authored grants

- 2010–2011 Psychomechanics of aerodynamic sounds (with G. Scavone [PI], S. McAdams, L. Mongeau, McGill University), CIRMMT Strategic Innovation Fund, \$10,000.
- 2010–2015 Auditory perception and cognition of sources, events and sequences (with S. McAdams [PI], McGill University), NSERC Discovery Grant, \$250,000.
- 2006–2009 Haptics, sound and interaction in the design of enactive interfaces (with M. M. Wanderley [PI], V. Hayward, S. McAdams, G. Scavone, P. Depalle and C. Guastavino, McGill University), NSERC Special Research Opportunity, \$479,651.

International research projects

- 2014–2016 Audio-Haptic modalities in Musical Interfaces (with S. Papetti [PI], see [project webpage under development](#)).
- 2008–2011 Sonic Interaction Design (SID), Cost IC0601 Action (with D. Rocchesso [PI], see <http://www.cost-sid.org/>).
- 2008–2011 Natural Interactive Walking (NIW), Seventh Framework Programme, Project no 222107 (with J. R. Cooperstock and F. Fontana [PI], see <http://www.niwproject.eu/>).
- 2001–2002 The Sounding Object, Project number IST-2000 25287 (with D. Rocchesso [PI], and G. B. Vicario, see <http://www.soundobject.org/>).

Supervision

Current team: main supervisor

- Research group** NaSCog (Natural Sounds Cognition and Neuroscience), internal group name adopted by its members in 2026; affiliated with the BraiNets collective at INT.
- March 2026– Mia-Sara Bertovic (doctoral student, INT/INS, CNRS and AMU, Marseille), with Aurelie Bidet-Caulet. Topic: Affective dimensions of natural sound responses in the human brain and body.
- October 2025– Michele Esposito (**postdoctoral fellow**, INT, CNRS and AMU, Marseille). Topic: Artificial intelligence models of electrophysiology responses to natural sounds.
- October 2025– Margarida Moreira (doctoral student, INT, CNRS and AMU, Marseille). Topic: Stimulus-driven attention in the cerebral processing of natural sound scenes.
- November 2023– Christian Ferreyra (doctoral student, INT, CNRS and AMU, Marseille), with Thierry Artieres. Topic: Information-theoretic analyses of MEG data and artificial neural networks.
- December 2022– Giorgio Marinato (**postdoctoral fellow**, INT, CNRS and AMU, Marseille). Topic: Electrophysiology of natural sound representation in the human brain.
- October 2022– Marie Plegat (doctoral student, INT/INS, CNRS and AMU, Marseille), with Daniele Schön. Topic: Spatio-temporal dynamics of natural sound representation in magnetoencephalography data. **Thesis defense scheduled for 1 February 2027. Examining committee: Dr. Daniel Pressnitzer (CNRS & Ecole normale supérieure); Dr. Anne Caclin (Lyon Neuroscience Research Center); Prof. Jennifer Bizley (UCL, London, UK)**

Past supervision: main supervisor

- 2025–2026 Sara Carta (**postdoctoral fellow**, INT, CNRS and AMU, Marseille). Topic: Saliency and semantic congruence effects on the cerebral representation of natural sound scenes.
- 2021 Dylan Ginet (Master's student, Aix-Marseille University, Marseille). Topic: computational models of natural sound perception.
- 2021 Lila Barrillot (Master's student, Aix-Marseille University, Marseille). Topic: physiological correlates of perceived voice emotions.
- 2020 Thibaut Piquemal (Master's student, Aix-Marseille University, Marseille). Topic: acoustics and semantics of natural sounds.

Past co-supervision

- 2022 Martin Bremm (Master's student, Department of Cognitive Neuroscience, Faculty of Psychology and Neuroscience, Maastricht University, Maastricht, The Netherlands), with Elia Formisano and Michel Dumontier. Topic: Development of a novel ontology of natural sounds.
- 2021–2024 Michele Esposito (doctoral student, Department of Cognitive Neuroscience, Faculty of Psychology and Neuroscience, Maastricht University, Maastricht, The Netherlands), with Elia Formisano. Topic: Deep neural network models of natural sound processing.
- 2021 Ricardo de Miranda Azevedo (**post-doctoral fellow**, Institute of Data Science, Faculty of Science and Engineering, Maastricht University, Maastricht, The Netherlands), with Elia Formisano and Michel Dumontier. Topic: Review of taxonomies and ontologies of natural sounds.
- 2019–2022 Charly Lamothe (doctoral student, Institut de Neurosciences de la Timone, CNRS and Aix-Marseille University, Marseille), with Pascal Belin and Thierry Artieres. Topic: RSA assessment of the representation of deep learning networks in the human and primate brain.
- 2016–2019 Yinan Cao (doctoral student, Department of Experimental Psychology, Oxford University), co-supervised with Christoph Kayser and Christopher Summerfield. Topic: computational modelling of audiovisual integration in electrophysiology (MEG).

- 2015–2018 Caroline Whiting (**post-doctoral fellow**, Institute of Neuroscience and Psychology, University of Glasgow), co-supervised with Joachim Gross and Pascal Belin. Topic: fMRI and MEG imaging of vocal affect.
- 2016–2017 Alexandra Vossen (research assistant, Institute of Neuroscience and Psychology, University of Glasgow), co-supervised with Joachim Gross. Topic: EEG imaging of vocal affect.
- 2013–2015 David Fleming (doctoral student, Institute of Neuroscience and Psychology, University of Glasgow), co-supervised with Pascal Belin. Topic: cortical processing of voices.
- 2013–2015 Yinan Cao (undergraduate student, Music Technology, McGill University), co-supervised with Stephen McAdams. Topic: audio-haptic integration in percussion performance.
- 2014 Jingting Zhang (**post-doctoral fellow**, Institute of Neuroscience and Psychology, University of Glasgow), co-supervised with Pascal Belin. Topic: effects of aging on the cortical encoding of vocal affect.
- 2013–2014 Emilie Salvia (**post-doctoral fellow**, Institute of Neuroscience and Psychology, University of Glasgow), co-supervised with Pascal Belin. Topic: encoding of vocally-expressed emotions in MEG data.
- 2010–2014 Charalampos Saitis (doctoral student, Music Technology, McGill University), co-supervised with Gary Scavone. Topic: perceptual quality of violin tones.
- 2010 Alexander Porres (visiting doctoral student from University of Sao Paulo, Brazil), co-supervised with Sean Ferguson. Topic: auditory perception of consonance and dissonance.
- 2009–2010 Yon Visell (doctoral student, Electrical and Computer Engineering, McGill University), co-supervised with Jeremy R. Cooperstock. Topic: integration of multisensory information during locomotion.
- 2009 Tifanie Bouchara (visiting doctoral student, Computer Sciences Laboratory for Mechanics and Engineering Sciences - CNRS, Orsay, France), co-supervised with Catherine Guastavino. Topic: effect of visual context on the identification of environmental sounds presented in noise.
- 2008 Mattson Ogg (undergraduate student, Psychology, McGill University), co-supervised with Stephen McAdams and Catherine Guastavino. Topic: methodological study of behavioral techniques for estimation of dissimilarity.
- 2007 John McDonnell (undergraduate student, Cognitive Sciences, McGill University), co-supervised with Stephen McAdams. Topic: cognitive processing of environmental sounds.

Long-term mentoring and career development

- 2013–2026 Yinan Cao: mentoring from undergraduate research and doctoral co-supervision through later career development, including preparation of ERC and CNRS CRCN applications; currently listed in the Professor category at the Institute of Psychology, Otto von Guericke University Magdeburg, Germany.

Teaching

- 2021 **Representational similarity analysis of neuroimaging and electrophysiology data**, Summer School of the Institute of Language, Communication and the Brain (ILCB), Marseille, France.
- 2014 **fMRI research methods**, Research Methods II (MSc), Institute of Neuroscience and Psychology, University of Glasgow.
- 2014 **Auditory cognitive neuroscience**, Visual perception and cognition (MSc), Institute of Neuroscience and Psychology, University of Glasgow.
- 2013 **Evaluation methods in sonic interaction; perception and brain imaging of sounds**, Sound and Music Computing Summer School, KTH Royal Institute of Technology, Stockholm, Sweden.
- 2013 **Behavioral methods for the study of perception and sensation**, Research Methods II (MSc), Institute of Neuroscience and Psychology, University of Glasgow.
- 2013 **Voice and speech perception**, Visual perception and cognition (MSc), Institute of Neuroscience and Psychology, University of Glasgow.

- 2013 **Auditory perception**, Visual perception and cognition (MSc), Institute of Neuroscience and Psychology, University of Glasgow.
- 2012 **fMRI design and analysis**, Brain imaging methods (MSc), Institute of Neuroscience and Psychology, University of Glasgow.
- 2010 **Design and analysis of behavioral experiments**, Workshop, CIRMMT, McGill University.
- 2010 **Fundamentals of Matlab programming**, Workshop, CIRMMT, McGill University.
- 2006 **Sound source perception**, Artificial Intelligence, Electrical and Computer Engineering, McGill University.
- 2003 **Adaptive psychophysical procedures**, Doctoral course lecture, Department of Psychology, University of Padova, Italy.
- 2002 **Auditory perception**, Psychology of Perception, Faculty of Multimedia Science and Technology, University of Udine, Italy.
- 2002 **Scaling: elements of psychophysics with applications to human-computer interaction**, Doctoral course lecture, Department of Informatics, University of Verona, Italy.
- 1999–2003 **Auditory perception**, Psychology of Perception, Faculty of Psychology, University of Padova, Italy.

Invited talks & oral conference presentations

- 2026 - *Characterizing natural sound representations with magnetoencephalography*, Salzburg Mind Brain Annual Meeting (SAMBA 2026), Salzburg, Austria.
- *The cerebral and perceptual representation of natural sounds*, Institute talk organized by Dr. Ruggero Bassanisi, IMT School for Advanced Studies, Lucca.
- *The cerebral and perceptual representation of natural sounds*, Auditory/Musical Imagery and Perception Conference (AMI&P), Rovereto, Italy.
- *The perceptual and cerebral representation of natural sounds*, Minisymposium on “Sound and Music in the Brain” organized by Prof. Yukiyasu Kamitani (Kyoto University), Kyoto, Japan.
- 2025 - *Assessing model representation, variance partitions and noise ceiling with cross-validated, whitened, and bias-adjusted RSA*, Workshop on Music, Speech, and the Brain, Institut de Neurosciences des Systèmes, Aix Marseille Université, Marseille, France.
- *The perceptual and cerebral representation of natural sounds*, 8th International Conference on Auditory Cortex (ICAC 2025), Maastricht, The Netherlands.
- *The perceptual and cerebral representation of natural sounds*, Neural Oscillations Group (PI: Ole Jensen), Department of Experimental Psychology, Oxford University, UK.
- 2024 - *Auditory-to-semantic computation of natural sounds in the human brain*, workshop on Neuroscience and Music Ontology (NeMO-CAMP 2024), Institut de Neurosciences des Systèmes, Carry-le-Rouet, France.
- *The perceptual and cerebral representation of natural sounds*, 15th Anniversary of CCNi (Centre for Cognitive Neuroimaging), University of Glasgow, Glasgow, UK.
- 2023 - *Intermediate acoustic-to-semantic representations link behavioural and neural responses to natural sounds*, CERIMED (Centre Européen de Recherche en Imagerie Médicale), Faculty of Medicine, Aix Marseille Université, Marseille, France.
- *The perceptual and cerebral representation of natural sounds*, Brain and Cognition Research Center (CerCo), CNRS and Toulouse III University, Toulouse, France.
- *Comparing acoustic, semantic, and deep neural network models of natural sound representation in perceived dissimilarity and cerebral fMRI responses*, 184th Meeting of the Acoustical Society of America, Chicago, IL.
- 2022 - *The perceptual and cerebral representation of natural sounds*, Institut de Neurosciences des Systèmes, Aix Marseille Université, Marseille, France.

- 2020 - *The perceptual and cerebral representation of natural sounds*, Keynote for the XXIII Colloquium on Musical Informatics, Torino, Italy, June 2020 (cancelled due to COVID).
- *The perceptual and cerebral representation of natural sounds*, Laboratoire de Mécanique et d'Acoustique (UMR 7031), CNRS and Aix Marseille University, Marseille, France. February 2020.
- 2019 - *Representational similarity analysis of neuroimaging and electrophysiology data: Strengths, outstanding issues and potential*, 12th Scientific day of the center IRM-INT, Marseille, France.
- *Spatio-temporal dynamics of the cerebral representations of emotion in voice*, OHBM 2019, Rome, Italy.
- *Modelling the perceptual and cerebral representation of natural sounds*, Centre for Human Brain Health, University of Birmingham, UK.
- *Modelling time-varying features in the brain: local representations and transfer*, INT Workshop on Computational Neurophysiology, Institute of Neurosciences de la Timone, Marseille, France.
- 2018 - *Perceiving everyday sound sources: psychoacoustics and neuroimaging*, Cognitive Neuroscience Lab (Prof. C. Kayser), Bielefeld University, Germany.
- 2017 - *Information-theoretic and RSA measurement of cerebral stimulus encoding*, Department of Experimental Psychology, University of Oxford, Oxford, UK.
- *Cerebral encoding of vocal emotions in fMRI and MEG multivariate response patterns*, MEG UK 2017, Oxford, UK.
- *Contributions of local speech encoding and functional connectivity to audio-visual speech integration*, Institut de Neurosciences des Systèmes, Aix Marseille Université, Marseille, France.
- 2016 - *Cerebral encoding of behaviourally estimated vocal emotions*, Institut de Neurosciences de La Timone, Aix Marseille Université, Marseille, France.
- *Perceiving everyday sound sources: psychoacoustics and neuroimaging*, Psychology Department, The Hebrew University of Jerusalem.
- *The dominance of haptics over audition in controlling wrist velocity during striking movements*, Haptics and musical practice workshop, organized by Institute for Computer Music and Sound Technology, Zurich University of the Arts, Zurich, Switzerland.
- *The perceptual and cerebral processing of natural sounds*, NIHR Nottingham Hearing Biomedical Research Unit, Nottingham, UK.
- 2015 - *The perceptual and cerebral processing of natural sounds*, Institut de Recherche et Coordination Acoustique/Musique (STMS-IRCAM-CNRS), Paris, France.
- *The perceptual and cerebral processing of natural sounds*, Music Informatics, Cognition and Acoustic Seminars (MusICA), University of Edinburgh, Edinburgh, UK.
- 2014 - *The perceptual and cerebral processing of natural sounds*, Institut de Neurosciences de La Timone, Aix Marseille Université, Marseille, France.
- *The perceptual and cerebral processing of natural sounds*, Department of Psychology and Neuroscience, Maastricht University, Maastricht, The Netherlands.
- *The perceptual and cerebral processing of natural sounds*, Department of Psychology, University of York, UK.
- *Characterizing the cortical representation of natural sounds using distance matrices*, Institut de Neurosciences de La Timone, Aix Marseille Université, Marseille, France.
- *The perceptual and cerebral processing of natural sounds*, Institute for Computer Music and Sound Technology, Zurich University of the Arts, Zurich, Switzerland.
- 2013 - *Studies on the perceptual and cerebral processing of non-speech sound sources*, Laboratory of Integrative Neuroscience and Cognition (Prof. J. Rauschecker), Georgetown Institute for Cognitive and Computational Sciences, Washington, DC.
- 2012 - *Perceptual and cerebral processing of natural sounds*, School of Social and Health Sciences, University of Abertay Dundee, Dundee, UK.

- *Abstract encoding of auditory objects in cortical activity patterns*, Medical Research Council Cognition and Brain Sciences Unit (MRC-CBU), Representational Similarity Analysis interest group, Cambridge, UK.
- 2011 - *Representational similarity analysis*, Annual Workshop of NSERC-CREATE network in Auditory Cognitive Neuroscience, Montréal, Canada.
- 2010 - *Measuring the perception of unimodal and multisensory naturalistic events*, Medialogy, Aalborg University Copenhagen, Ballerup, Denmark.
- *Cortical processing of environmental sounds*, CIRMMT Student Symposium, Montréal, Canada.
- *Neural correlates of nonlinguistic auditory processing*, Auditory Cognitive Neuroscience Symposium - 2010 International Laboratory for Brain, Music and Sound Research (BRAMS) Scientific Day, Montréal, Canada.
- *Category specificities in the neural processing of environmental sounds: activation- and information-based mapping*, Auditory Cognitive Neuroscience Laboratory, Department of Neuropsychology, McGill University, Montréal, Canada.
- 2009 - *Modeling the perception of musical and natural sounds: acoustics, mechanics and semantics*, CIRMMT Workshop on Timbre, McGill University, Montréal, Canada.
- 2008 - *Audio-haptic integration in action-based perception of impacted objects*, CIRMMT Workshop on Multimodal Integration, McGill University, Montréal, Canada.
- *Perception of the sound source in purely auditory and multisensory contexts*, Music Technology Group, University Pompeu Fabra, Barcelona, Spain.
- *Non-visual identification of walking grounds*, Acoustics08, Paris, France.
- *Perception of sound sources in purely auditory and multisensory contexts*, Department of Psychology, McGill University, Montréal, Canada.
- *Multisensory identification of walking grounds*, CIRMMT Workshop on Multimodal Influences on Perceived Self Motion, McGill University, Montréal, Canada.
- *Perception and categorization of auditory sources and events*, coauthored with Stephen McAdams, Auditory Objects Workshop, University of Toronto, Mississauga, Canada.
- 2007 - *Acoustical and conceptual information for the perception of animate and inanimate sound sources*, International Conference on Auditory Display (ICAD 2007), Montréal, Canada.
- *The object of perception in impacted sound sources: the role of perceptual accessibility and information accuracy*, 151st Meeting of the Acoustical Society of America, Salt Lake City, UT.
- 2006 - *Sound source perception*, Haptics Laboratory, Department of Electrical and Computer Engineering, Faculty of Engineering, McGill University, Montréal, Canada.
- *Sound source perception*, Auditory Cognitive Neuroscience Laboratory, Department of Neuropsychology, McGill University, Montréal, Canada.
- 2005 - *Sound source perception in walking sounds: walkers' emotions, gender, weight and shoes properties*, Department of Speech, Music and Hearing (TMH), Royal Institute of Technology (KTH), Stockholm, Sweden.
- 2002 - *Material recovery from impact sounds: a study in Ecological Acoustics*, Hearing Research Center, Boston University, Boston, MA.
- *Recovering the material of the objects from impact sounds*, Music Perception and Cognition Laboratory, STMS-IRCAM-CNRS, Paris, France.
- *Recovering the material of the objects from impact sounds*, Disappearing Computer Research Atelier Sonification of Hybrid Objects (SOHO), Centro Culturale Candiani, Mestre, Italy.
